KIC Holdings Inc.

CEO Katsuyuki Mineta Attended the Asia Pacific Real Assets Leaders' Congress

From October 15 to 17, the APREA (Asia Pacific Real Assets Association) Leaders' Congress was held at the Shangri-La Tokyo hotel.

KIC Holdings was proud to participate as a **Bronze Sponsor** of this prestigious event. During the conference, CEO Katsuyuki Mineta took part in a panel session titled "**From Resilience to Reinvention: Logistics and Warehouses**". He provided insights into the current state of Japan's logistics market, investment trends, and future projections, engaging in valuable exchanges of opinions with other industry leaders.

The session also highlighted that the logistics market continues to attract significant attention from investors across many Asia-Pacific markets. This growing interest is driven by the modernization of logistics infrastructure, including:

- The development of last-mile delivery systems in response to the rise of e-commerce
- The adoption of automated warehouse systems
- The establishment of cold chain logistics networks

We remain committed to monitoring those trends in the logistics market and providing attractive investment opportunities to our stakeholders through our involvement with APREA.
